

## **BLESSINGS**

I congratulate Dr. Hemant Broker to make this instrument user friendly and for his dedication and commitment in making it possible for using by all family members young or old. Many hours of sleep has been given to this project.

I also would like to write few words about the frequency generator which has been the brain child of the great Hulda Clark and Royal Rife. They have dedicated many years in this field as many others have done. They have left a legacy for the world with a research.

This frequency generator is capable of doing miraculous benefit to the patient who uses it. I have been using the first instrument since years and it has been improved again and again. I feel it is a must for every person and even practitioners to understand and use this frequency device and get yourself satisfied which supports in curing the disease. This new concept of healing should be popularized and needs blessing from the people who are cured by this concept.

Wish you all God's richest blessing,

Swamiji,  
(Swami Anand)
